The Center | Central Kitchen, Instructional Farm, and Education Center Construction Update: August 24, 2016

Construction of The Center Is Moving Forward

The Center Design - View From 29th and West Street Corner

Dear Neighbor,

Work on OUSD’s new Central Kitchen, Instructional Farm, and Education Center (The Center) is progressing. Beginning August 24, we will start removing soil from the site to prepare the ground for grading (or leveling and stabilizing the ground surface). You may see trucks entering and exiting the construction site to load soil and transport it off the premises. This work will occur on weekdays, Monday through Friday, from 7:00am until 3:30pm and is expected to take approximately 2-3 weeks to complete.

A video camera has been installed on the project site that will allow the community to see The Center as it’s being built. Access to this time-lapse video is available on our project website (www.ousdthecenter.org).

Many of you have now met the two Neighborhood Construction Liaisons (NCLs) when they visited your street or connected with you at community meetings. They will update residents about the construction project and ensure that local concerns and needs are taken into account throughout the construction process. If you have questions about construction-related activities, please contact one of our Neighborhood Construction Liaisons.
